Background

- LSD-49(CV) Class PALs
- PALs (New Construction) Since LSD-49(CV)
- LCS-1 Program Discussions of Interim Supply Support (ISS)
- Interim Support Value Stream Analysis (VSA) July 17-20 2007
- Provisioning, Allowance and Fitting Out Support (PAFOS) Chapter 4 Update

PAL DEVELOPMENT PROCESS

NOTE to TSAs: Continue to follow up with Prime Contractors to ensure remaining PTD is delivered. Once remaining PTD is delivered, coordinate with NAVICP to have PALs superseded by APLS.

Issues

- When should PALs be used?
- What should PALs be used for?
 - All End-Items with ISS
 - Replacement for Allowance Appendix Pages (AAPs)
- 0 COG ISS on Full Support APLs (Not on Preliminary Allowance List (PALs))
- Conversion of PALs to Full Support APLs
 - Update of DENs to Reflect Information Learned during ISS

PCOE Action

- Discuss issues as a group
- Discuss Pros and Cons of PALs
- Determine if Solutions can be identified
- Assign a WG (if Necessary)
